

# ICS First Quarter Reflection

**Due at 4:00 on Thursday March 8<sup>th</sup> Showbie Code: T6GZF**

## **Instructions:**

We have had a good start to the semester. Everyone is working on interesting projects and making good progress. Every quarter we are going to take time to reflect on how things are going and think about what we have learned. Complete the reflection below, hand it in and I will give you a mark and feedback on your progress in the class.

## **Success Criteria:**

- Your reflection is an accurate representation of your time in this course.
- You have included some sort of media: pictures, diagrams, screen shots, videos etc..
- You have clearly explained what you have learned and what your goals are for the next quarter
- Your responses are between 50 and 200 words each.
- Your completed reflection is handed in to the First Quarter Reflection folder on Showbie.

## **Discussion Questions:**

1. What projects have you worked on so far in the course?
2. What are two things you have learned about programming?
3. What are your goals for the next quarter (4 weeks) of the course?
4. Describe something interesting you saw someone else do in the class.
5. How do you feel the course is going? Are you happy? Any suggestions for improving things?
